Forecast for Tuesday 30 May 2023

Weather: Another fine day with largely unbroken sunshine, although some patchy low cloud perhaps affecting higher slopes in the eastern and central part of the range at first. A little less breezy than on Monday and feeling warmer.

Chance of cloud-free hill tops above 800m: 90% around dawn, increasing to 100% by early morning.

Low Cloud and visibility: Isolated cloud patches obscuring tops above 500m in eastern and central areas early daytime. Cloud soon lifting clear of all summits and dissipating by around mid-morning. Otherwise very good visibility with distant peaks in clear view.

**Level above which ground is expected to be frozen/snow is expected to settle.*

Meteorologist's View

UV levels will be high again on Tuesday so adequate sun protection is required. Feeling warm in the sunshine, especially in valleys so bring plenty of water.

Forecast for Wednesday 31 May 2023

Weather: Low cloud covering many eastern hills and some central upslopes early morning, but lifting and clearing by mid-late morning to leave a fine, sunny and rather warm day. Fairly breezy on ridges and summits.

Maximum wind: Easterly or northeasterly 15-20mph, with gusts 25-30mph.

Chance of cloud-free hill tops above 800m: 40% in the east at first, 70% in the west, increasing 100% in all areas from mid-late morning.

Low Cloud and visibility: Rather extensive low cloud to around 400-500m at first, especially in the east. Cloud soon lifting clear of all summits and dissipating by mid-late morning. Very good or excellent visibility once again outside of any cloud.

Temperature: **Valleys:** Plus 4 Celsius rising to Plus 21 Celsius
At 800m: Plus 10 Celsius rising to Plus 13 Celsius
Freezing level: Above summits

Saturday	Again a chance of early low cloud on eastern slopes. Otherwise a dry and sunny day. Light to moderate east or northeasterly winds. Freezing levels above summits.
